Izjava o odricanju od odgovornosti: većina zapisa o oštećenjima povezana je s prometnim nesrećama, ali ne isključivo s njima. Neki zapisi, kao što su procjene štete, dražbe, pregledi vozila, popravci i drugi slični događaji, radnje ili okolnosti, mogu ući u izvješće iz različitih razloga. Takvi zapisi mogu ukazivati, na primjer, da je vozilo pregledano i procijenjeno u ovlaštenom servisnom centru ili da su izvršeni popravci, jamstveni servis, dijagnostika, pregled vozila ili druge slične usluge. Takvi pregledi ili procjene vozila mogu se provesti zbog oštećenja nastalih tijekom prometne nesreće, kao i zbog drugih razloga kao što su zakonski zahtjevi i/ili postupci, podaci koje je objavio proizvođač, jamstveni ili izvanjamstveni popravci, ispravci loše izvedenih popravaka ili oštećenja koja nisu povezana s prometnim nesrećama (npr. krađa, mehanička oštećenja itd.). Važno je napomenuti da takvi zapisi ne moraju nužno ukazivati na posljedice prometne nesreće – oni također mogu biti povezani s korištenjem, održavanjem ili radom vozila u skladu sa zahtjevima i okolnostima koje je odredio proizvođač ili treće strane.

Pojašnjenje odjeljka „Oštećenja“

Procjena troškova prethodnih popravaka

Ako je na vozilu prijavljena šteta, trošak prošlih popravaka procjenjuje se na temelju mjesta procjene štete i prikazuje se u valuti te zemlje. Ovaj iznos može se razlikovati od onoga iznosa koji očekuješ na lokalnu. Evo zašto:

Cijene popravaka razlikuju se od zemlje do zemlje zbog razlika u cijeni rada i cijeni dijelova.

Procjena se temelji na radu koji se obavlja u službenim servisnim centrima, koji su obično skuplji od neovisnih radionica.
